PROFESSIONAL SUMMARY

BCA graduate specializing in DevOps and Cloud Engineering with hands-on experience in AWS, Kubernetes, Terraform, and CI/CD pipelines. Developed scalable applications on AWS EKS, provisioned infrastructure using Terraform IaC, and established monitoring solutions using Prometheus and Grafana. Experienced in container orchestration, cloud-native architecture, data analytics, and web development.

TECHNICAL SKILLS

Cloud & DevOps: AWS (EC2, S3, IAM, EKS, Lambda, CodePipeline, CodeBuild, CodeDeploy), Docker, Kubernetes, Terraform, Linux

CI/CD & Automation: GitHub Actions, AWS CodePipeline, Git, Cloud Automation

Monitoring: Prometheus, Grafana, CloudWatch, Container Orchestration

Data & Web: MySQL, SQL, Excel, Pivot Tables, Python, JavaScript, HTML, CSS

PROJECTS

Cloud-Native Microservices Platform on AWS EKS

Tools: AWS EKS, Docker, Kubernetes, GitHub Actions, Prometheus, Grafana

- Orchestrated 4 microservices on AWS EKS with auto-scaling (2-10 replicas) and zero-downtime deployments.
- Established CI/CD pipeline using GitHub Actions and AWS ECR, reducing deployment time from 2+ hours to 3 minutes (97% faster).
- Configured real-time monitoring using Prometheus and Grafana for CPU, memory, and pod health observability.

E-Commerce Sales and Revenue Dashboard

Tools: MySQL, SQL, Excel, Data Analysis, Pivot Tables

- Analyzed 500,000+ sales records in MySQL to identify top products, revenue trends, and customer patterns.
- Produced an interactive Excel dashboard with pivot tables and KPIs — Total Revenue Rs. 4.01 Crores, 22,068 Orders.
- Extracted actionable business insights across 3 relational tables using JOINS, aggregations, and SQL views.

Responsive Web Application Development

Tools: HTML, CSS, JavaScript, Responsive Design

- Designed and delivered 5+ responsive web applications as part of a professional team of 10+ developers.
- Enhanced UI rendering performance by 30% through optimized asset loading and clean code practices.

INTERNSHIP EXPERIENCE

Web Developer Intern

Jun 2025 - Jul 2025

Tamizhan Skills

Remote, India

- Built and launched 5+ responsive websites using HTML, CSS, and JavaScript.
- Collaborated in a team of 10+ developers, following agile practices and modern web standards.

Python Programming Intern

Jun 2024 - Jul 2024

YBI Foundation

Remote, India

- Completed 15+ Python exercises covering data structures, algorithms, and object-oriented programming.
- Created 3 Python scripts to automate repetitive tasks and improve workflow efficiency.

EDUCATION

Bachelor of Computer Application (BCA)

Aug 2023 - Apr 2026

Sri Sri University

Cuttack, Odisha | CGPA: 8.40

Intermediate in Commerce (I.Com)

Apr 2021 - Jul 2023

Rairangpur College

Rairangpur, Odisha

CERTIFICATIONS

AWS for Beginners – Simplilearn | Google Cloud Fundamentals – Google Cloud | Claude Code – Anthropic | Generative AI – LinkedIn Learning | Web Development – Internshala
